

Review Report

Group ID: **2**

Project Name: MediPal

Prepared by: **Nguyễn Kiến Hào**

Team members:

23127290 - **Nguyễn Kiến Hào** - *Project manager / Developer*

23127395 - **Trần Anh Khoa** - *Developer / DevOps / Tester*

23127279 - **Võ Văn Tuấn** - *Developer / UIUX Developer*

23127500 - **Nguyễn Công Toàn** - *Business Analyst / Developer / Tester*

23127415 - **Trần Hữu Lượng** - *Tester / Developer / DevOps*

1. What went well

- Created a backlog for Sprint 2
- Revised Development Plan
- Revised Project Vision
- Created use case model and specification

2. What went wrong

- Each team member's role described in the Development Plan was too narrow and needed to be more realistically distributed among each member.

3. Problems and Cause

No.	Description	Cause
1	Tasks were not done in a timely manner, which resulted in quality suffrages	Each member's time allocated for their assigned tasks were not made clear

4. What can be done differently next sprint

- For each task, set more specific deadlines to encourage members to complete said tasks in a more timely manner
- Initiate tasks earlier, preferably at the start of each week

5. Lessons learned

- Each member should remind each other of assigned tasks to more efficiently complete them.
- Assign tasks with complexity proportionate to each member's available time frame (harder tasks = more time) to ensure task completion with less hassle and inconvenience.
