1. Achievements since last week:

- Successfully created a clear and concise concept for the project, with a solid purpose and end goal.
- Assigned roles and duties for each member within the team for future work and project development.
- Made a rough draft of the application's functions to be worked on.

2. Issues and impacts:

- No specific step-by-step plan to develop the project yet.
- No proper schedule for future development work.

3. Next week's goals:

- Develop a schedule of each member's possible allocated time for development work.
- Elaborate on the application's functions to properly analyse complexity and estimate workload.
